

JOB DESCRIPTION:

- Position Title:** Heavy Duty Mechanic (Timmins location)
- Reports To:** Operations Manager
- Position Details:** Maintains production and quality by ensuring operation of machinery and mechanical equipment.

Job description

Walden Equipment is growing! We are looking for Heavy Equipment Technicians / Heavy Duty Mechanics with Journeyperson certification to join our team. In this role you will find solutions while making safety a priority.

You will be at the forefront helping to keep those machines, and the industry they service, moving.

At Walden Equipment, our Heavy Equipment Technicians are responsible for providing repairs, overhauls and new builds in mining equipment.

This position will employ logic and deductive reasoning in diagnosing and troubleshooting.

Responsibilities include, but are not limited to:

- Performing assemblies, preventative maintenance, repairs and complete overhauls on heavy equipment.
- Diagnose faults or malfunctions using computerized or other testing equipment to determine the extent of repair required.
- Make recommendations regarding extent of repairs and suggest methods of improvement.
- Think logically and keep up with changes in technology.
- Interpret work order and technical manuals.
- Complete job specific reports and paperwork as needed.
- Have a strong awareness and attitude towards workplace health and safety.
- Motivated and able to work in a challenging environment with minimal supervision.
- Job tasks may be physically demanding lifting up to 50 lbs.

Qualifications:

The successful candidate will possess a Journeyperson Heavy Equipment Technician certification. Equivalent combinations of education and experience may be considered.

Other requirements include:

- Strong commitment to safety.
- Experience in repair/maintenance of heavy equipment.
- Strong written and verbal communication.
- Some positions may require the ability to travel and meet customer site requirements.
- Experience with Walden equipment is considered an asset.
- Interprovincial Red Seal is considered an asset.
- Basic underground common core would be an asset.
- This position is required to sometime work at our customers' location.

The above description reflects the general scope and nature of the work performed. This description is not intended to reflect every duty and responsibility of the position but is intended to give a general outline of the position and its responsibilities. It is understood that the duties and responsibilities may change from time to time.
